Attachments:	 Error message overlapse.mp4		
Severity/Importance:	3-Average		
Error Type:	GUI		

Description

Steps to reproduce:

1. Go to " <https://photostudio.demohoster.com/connect/contact> "

2. Login to this system

3. Click on Connect and then Click on Contact

4. Filled the form with valid data

5. Click on send message button

6. Reload the contact page

7. Repeat 4 to 6 steps two more time

8. Again filled the form without the last name field

9. Click on the Send message button

10. Observed the result

Actual Result: The last name empty field error message overlaps with the previously input last name list when clicking on send message button.

Expected result: The last name empty field error message should not overlap with the previously input last name list. It should be displayed clearly. The message can be displayed top or right side of the text field.

Additional Information: This issue is also present in **Email** and Subject text fields.

[QATC-809744] Connect: Contact: Filling the form with valid data when clicking the "send message button" the current page collapse instead of a successful message
